LEARNING TOGETHER...

INSPIRING SUCCESS...

**SREE NARAYANA COLLEGE  
OF TECHNOLOGY AND RESEARCH CENTRE**  
(M. G. UNIVERSITY OFF-CAMPUS ACADEMIC CENTRE)

Managed by the SNDP Union Karunagappally

## The College

Sree Narayana College of Technology and Research Centre is a new generation professional college managed by the SNDP Union Karunagappally and established in the year 2005. It started off with only 15 students and a few teachers. The powerful managing of our founder Manager (A. Somarajan, Secretary, SNDP Union, Karunagappally) and the concerted efforts of our efficient teachers have made our institution first among the equals. SNCTRC is permanently affiliated to M. G. University, Kottayam as its Off-Campus Academic Centre. It is situated in the heart of Karunagappally near Govt. Hospital.

We aim at imparting quality education to the students. Our students have enjoyed all the infrastructure that are significant to higher studies. Besides academic activities great encouragement is given to the students in the field of co-curricular activities. At present, the overall performance of the college is excellence at par, I feel proud to mention here that our college is counted among the best colleges.

Founder Manager & Co-ordinator, SNCTRC)

## Message from the Principal

As the Principal, I am proud to be leading SNCTRC which provides learning opportunities to all the communities. We aspire to provide a positive learning experience for all our students regardless of ability, background or prior educational attainments. We will develop your potential to become a successful learner and to achieve your life goals.

What disturbs and concerns me most is what surrounds us in these troubled times. Violence, terror, death, natural and man-made calamities, the economic downturn, all seems to be sending a signal to mankind. Enough is enough, rein yourself in, discipline your mind, live in harmony with nature, decrease your wants or else be destroyed. It's time we paid heed to these warning bells.

But no one can have sunshine or dark dismal clouds forever. There is hope yet, let us change tracks and talk about the youth at SNCTRC. All that we endeavor to do in college is to challenge all odds in the world. We prepare to be good human beings, inculcate values: to empathise with the lesser privileged, care for the environment, to tune our finer senses and share the bliss of memorable moments with friends. That's what we are all about. So I will refrain from despairing, adopt a more nuanced approach, and hold the flag aloft.

To sum up, our students are intelligent, smart, well trained and effective. We have an established placement cell, which maintains a data bank of qualified students and corporate companies that constantly strives to bring them together. I can proudly say that our students can prove to be important assets to any progressive organisation.
